The Founder's Blueprint

Growing — twelve levels, four domains

Clients repeat and revenue is real, but the business still runs through one head. The work now is people and systems.

A founder does not fail at one thing. They run out of clarity in one of four places: who they are, how they handle people, how the work actually runs, and what the market is telling them. This manual works all four, a level at a time, for twelve weeks.

12 levels | **4 domains every level** | **7 clarity points each** | **336 steps** | **48 worksheets**

GROWING

The twelve levels

01	Only you, on one list	LEAD YOURSELF	FREE
02	Hire on paper first	LEAD YOUR PEOPLE	FREE
03	Fix what breaks first	LEAD YOUR BUSINESS	FREE
04	Say the hard thing	LEAD YOUR PEOPLE	OPENS WITH ONE SESSION
05	Define “finished”	LEAD YOUR BUSINESS	OPENS WITH ONE SESSION
06	Five customers, one phrase	LEAD THE MARKET	PERSONAL LEADERSHIP LAB
07	Write the unwritten deal	LEAD YOUR PEOPLE	PERSONAL LEADERSHIP LAB
08	Your week, on one page	LEAD YOUR BUSINESS	PERSONAL LEADERSHIP LAB
09	Remove one brick	LEAD YOURSELF	PERSONAL LEADERSHIP LAB
10	Fix the failing handoff	LEAD YOUR BUSINESS	BUSINESS GROWTH HUB
11	Trust, checked	LEAD YOUR PEOPLE	BUSINESS GROWTH HUB
12	Your business, on one page	ALL FOUR	BUSINESS GROWTH HUB

BEFORE THE FIRST LEVEL

How to use this

Every level works all four domains and gives one of them the lead. Seven clarity points in each domain, so twenty-eight answers close a level. Twelve levels, twelve weeks.

The seven are the same every time, going a layer deeper at each level:

1. **Name it** — State the thing in one plain sentence, before any explaining.
2. **Evidence** — What is actually true here — something you can open, count or quote.
3. **Gap** — The distance between what you claimed and what the evidence shows.
4. **Cost** — What that gap is costing you now, in money, time or people.
5. **Decision** — The one choice in this that is yours to make this week.
6. **Move** — The smallest proportionate step, and the date it happens.
7. **Review** — What you will check to know it worked, and when.

No step here can be answered by thinking hard. Each one names what to open, what to count and what to write. If you find yourself reflecting rather than looking something up, you have skipped the instruction.

Write in the book. The lines are there because an answer in your head is not an answer. A level closes when all twenty-eight are written, not when you have read them.

One level a week. Faster is not better. The moves have to land in a real week before the next level asks you to look at what happened.

Where a level says a date, write a real one. Where it asks for a number, go and get the number. That is the whole method.

01

LEVEL 1 · GROWING · LEANS ON LEAD YOURSELF

Only you, on one list

THE PROMISE OF THIS LEVEL

By Sunday you will have a written list of what only you can do, one thing removed from it, the first page of a process somebody else can follow, and one customer asked why they stayed.

Lead yourself

What only you can do — The short list, honestly made

1

NAME IT

Write everything you did last week that you believe only you could have done.

2

EVIDENCE

Go through the list and mark each one: only me, could be taught, or should never have been mine. Count each category.

3 GAP

Which item did you mark “only me” that you have never actually tried to teach?

WORKSHEET · AFTER CLARITY POINT 3

The short list, honestly made

Everything you did last week that nobody else could have done. Then, beside each, the honest reason: skill, authority, relationship — or habit.

WHAT YOU DID	SKILL, AUTHORITY, RELATIONSHIP OR HABIT	HOURS

HOURS ONLY YOU COULD DO _____

Four reasons, only two of them real. Work reaches a founder for one of four reasons. Skill and authority are genuine and usually small. Relationship is real for a while and should be handed over on purpose. Habit is the one that grows quietly and never announces itself. Sorting the list by reason is the whole exercise; the hours only tell you how urgent it is.

What this decides. One habit-row you hand over this month, with a name beside it.

4 COST

What does keeping that item cost — in your hours, and in what did not get done?

5 DECISION

Decide the one item to move out of “only me” this quarter.

6 MOVE

Write who learns it, the first date they watch you do it, and the date they do it alone.

7 REVIEW

What will you check on that second date to know it transferred?

Lead your people

Who is waiting on you — The queue nobody tells you about

1 NAME IT

List the people who currently cannot finish something without an answer from you.

2 EVIDENCE

Open your messages from last week. How many of them were somebody waiting? Count.

WORKSHEET · AFTER CLARITY POINT 2

The queue nobody tells you about

Everyone currently waiting on something from you. How long they have been waiting, and what it is holding up.

WHO	WAITING FOR WHAT	DAYS WAITING

DAYS OF OTHER PEOPLE'S TIME, WAITING ON YOU

What this decides. What you clear today, and what you hand to someone else before Friday.

3 GAP

What is the average wait before you answer? Estimate from the timestamps and write it.

4 **COST**

What did the waiting cost last week — in delayed work or in their momentum?

5 **DECISION**

Decide what they are allowed to decide without you. Be specific about the limit.

6 **MOVE**

Write that permission as a sentence, name who gets it, and say when you will tell them.

7 **REVIEW**

What will you see next week if they used it?

Lead your business

The first page somebody else can follow — Written for a stranger, not a reminder for you

1 **NAME IT**

Write the job that comes up most often and always lands on you.

2 **EVIDENCE**

Do it once and record each action as you go. Number them.

3 **GAP**

Which actions would a competent stranger not know to do?

4 **COST**

What has it cost to be the only person who can do this, in the last month?

5 DECISION

Decide what “done” looks like here, in terms somebody could check without you.

6 MOVE

Write the steps and that definition on one page, and say where it lives.

WORKSHEET · AFTER CLARITY POINT 6

Written for a stranger

The process on one page. The test is not whether it is complete — it is whether somebody who has never done it could follow it without asking you.

STEP	HOW THEY KNOW IT IS DONE

STEPS WITH A FINISH LINE

What this decides. Who reads it this week, and what they say was unclear.

7 REVIEW

Who runs it next, on what date, and who confirms the result?

Lead the market

Why they stayed — Retention has a reason, and it is rarely the one you assume

1 NAME IT

Write why you believe your longest-standing customer has stayed.

2 EVIDENCE

Ask them. One question: “What would have to happen for you to leave?” Paste the answer.

3 GAP

What did they name that you had not thought of?

WORKSHEET · AFTER CLARITY POINT 3

What repeat is worth

Of your revenue in the last twelve months, how much came from customers who had bought before.

REVENUE FROM RETURNING CUSTOMERS

TOTAL REVENUE

REVENUE THAT CAME BACK ON ITS OWN

Why repeat is the cheapest revenue there is. A returning customer costs nothing to find, nothing to convince and little to brief. That is why the share matters more than the total: two businesses with identical revenue can have completely different futures depending on how much of it has to be won again. Any accounting tool will tell you this number — what it will not tell you is the reason, which only the customer can.

What this decides. Whether this quarter’s effort goes to winning new customers or to understanding the returning ones.

4 COST

How many other customers are exposed to that same thing right now? Count them.

5 DECISION

Decide the one change that protects against it.

6 MOVE

Write the change, who owns it, and the date it is done.

7

REVIEW

How will you know it is protected? Name what you would check in ninety days.

This level closes when all twenty-eight are answered. Not before.

02

LEVEL 2 · GROWING · LEANS ON LEAD YOUR PEOPLE

Hire on paper first

THE PROMISE OF THIS LEVEL

By Sunday one role in your business will exist on paper before it exists as a person: its outcomes, its limits, the number it owns, and the first week of work it would do.

Lead yourself

What you are refusing to let go of — The role you are quietly keeping

1

NAME IT

Write the part of the work you would find hardest to hand to somebody else.

WORKSHEET · AFTER CLARITY POINT 1

The role you are quietly keeping

There is a part of the work you will not let go of. Name it before you name the hire.

I will not hand over _____, because _____. If someone else did it, I am afraid _____.

WHAT YOU KEEP _____

THE REASON YOU GIVE _____

WHAT YOU ARE ACTUALLY AFRAID OF _____

THE ROLE YOU ARE KEEPING _____

What this decides. Whether this stays yours on purpose, or goes in the job description.

2

EVIDENCE

Count the hours it took last month.

3

GAP

Is it hard to hand over because it is genuinely difficult, or because it is where you feel most useful?

4 COST

What has holding it cost in the work only you can do?

5 DECISION

Decide what has to be true before you would hand it over. Write the condition.

6 MOVE

Write the first thing that makes that condition closer, and when you will do it.

7 REVIEW

What date do you revisit this, and what evidence would change your mind?

Lead your people

The role before the hire — Outcomes first, person second

1 NAME IT

Write the role you keep thinking you need to hire. Name it plainly.

2 EVIDENCE

List everything that currently falls to nobody, or falls to you by default. Mark which belong to this role.

3 GAP

Which of those would you actually hand over on day one, and which would you not? Say why.

4 COST

What is the unfilled role costing per month? Give a figure, in hours or in lost work.

5 DECISION

Decide the three outcomes this role owns. Not tasks — outcomes.

WORKSHEET · AFTER CLARITY POINT 5

Outcomes first, person second

Before any job title: the four outcomes this role owns, how each is measured, and who holds it today.

OUTCOME THE ROLE OWNS	HOW YOU WOULD KNOW	WHO HOLDS IT NOW

OUTCOMES YOU COULD ACTUALLY CHECK

A role is a set of outcomes, not a pile of tasks. Hiring for tasks produces someone who waits to be told. Hiring for outcomes produces someone who decides. The difference is written at this stage or not at all — and it is the difference between a hire that gives you time back and one that takes more.

What this decides. Whether this is one role or two, and which you need first.

6 MOVE

Write the one number that tells you the role is working, and the first week of work it would do.

7 REVIEW

When will you review whether the role is still the right one, before you hire for it?

Lead your business

What the role would touch — Where it meets the work that already exists

1 NAME IT

Write where this role’s work starts and where it ends.

2

EVIDENCE

Open your last month. Find every place that work currently happens, and who did it.

3

GAP

Where would two people now overlap, or a gap open up?

WORKSHEET · AFTER CLARITY POINT 3

What the role would touch

Every existing process the new role would reach into. Who owns it now, and what has to be agreed before the role exists.

PROCESS	OWNER TODAY	WHAT MUST BE AGREED

BOUNDARIES SETTLED IN ADVANCE

What this decides. Which boundary you settle before anyone is interviewed.

4

COST

What does an unclear boundary cost? Find an example from the last three months.

5

DECISION

Decide who holds the final say at each boundary.

6

MOVE

Write it down in one line per boundary, and where that note lives.

7 **REVIEW**

Which piece of work this month tests it, and who reports back?

Lead the market

What growth asks of the offer — Whether what you sell survives more of it

1 **NAME IT**

Write what you sell most of, and how many you delivered last month.

2 **EVIDENCE**

Work out how many you could deliver at current staffing. Write the ceiling.

3 **GAP**

At what number does quality start to slip? Find the month it last happened.

4 COST

What did the slip cost — a refund, a review, a customer who did not return?

WORKSHEET · AFTER CLARITY POINT 4

What the hire has to earn

The real annual cost of the role — salary plus everything on top — and what one customer is worth to you in a year.

TRUE ANNUAL COST OF THE ROLE (SALARY + ON-COSTS)

WHAT ONE CUSTOMER IS WORTH A YEAR

CUSTOMERS THIS ROLE MUST ADD OR KEEP

The true cost of a person. A salary is roughly two thirds of what an employee costs. Taxes, contributions, equipment, software, holiday, the time spent managing them and the months before they are useful make up the rest — and the proportions differ by country, so use yours rather than a rule of thumb. The number is not an argument against hiring. It is what the hire has to be worth, stated once instead of discovered later.

What this decides. Hire, delay, or hire smaller — and the date you revisit it.

5 DECISION

Decide whether you raise the price, change the delivery, or cap the volume.

6 MOVE

Write the decision and the date it takes effect.

7 REVIEW

What will you measure for two months to know it held?

This level closes when all twenty-eight are answered. Not before.

03

LEVEL 3 · GROWING · LEANS ON LEAD YOUR BUSINESS

Fix what breaks first

THE PROMISE OF THIS LEVEL

By Sunday the process that breaks most often will be written down, run once by somebody else, and fixed where they hesitated — and you will have the number that proves it was the one worth fixing.

Lead yourself

The fire you keep returning to — Why the same problem keeps reaching you

1

NAME IT

Write the problem you have personally solved more than three times this year.

WORKSHEET · AFTER CLARITY POINT 1

Why it keeps reaching you

The same problem arrives at your desk repeatedly. Say why, in one sentence that does not blame anyone.

This reaches me because _____. For it to stop reaching me, _____ would need _____.

WHY IT COMES TO YOU

WHO WOULD HOLD IT

WHAT THEY WOULD NEED

WHY IT IS STILL YOURS

What this decides. Which of the three you give, and by when.

2

EVIDENCE

Count the times, and the hours each took. Total them.

3 **GAP**

Why does it reach you — because nobody else can, or because nobody else is allowed?

4 **COST**

What would a year of that total be worth, in hours?

5 **DECISION**

Decide: fix the process, or give the decision away.

6 **MOVE**

Write which, and the first step, with a date.

7 **REVIEW**

How many weeks until you count the recurrences again? What number is a pass?

Lead your people

Who gets interrupted — The cost lands on somebody, and it is rarely you

1 **NAME IT**

Write who gets pulled off their work when this process breaks.

2 **EVIDENCE**

Ask them how many times it happened last month. Write their number, not yours.

3 **GAP**

How does their number compare with what you assumed?

4 COST

What has that done to the work they are actually accountable for?

WORKSHEET · AFTER CLARITY POINT 4

Who gets interrupted

When this breaks, somebody drops what they were doing. How often a month, how many people, and how long each loses.

TIMES A MONTH

HOURS LOST EACH TIME, ACROSS EVERYONE

HOURS A MONTH THIS COSTS OTHER PEOPLE

Interruption costs more than the interruption. The hour is only the visible part. Work put down mid-thought takes time to pick up, and the person who absorbs the interruption usually absorbs the apology too. Count the hours because they can be counted — then remember the figure is low.

What this decides. Whether you fix the break or protect the people from it first.

5 DECISION

Decide what they are allowed to do next time instead of waiting.

6 MOVE

Write that permission and the day you tell them.

7 REVIEW

What will they report back, and when?

Lead your business

The process that breaks first — Written, run, and corrected

1

NAME IT

Write the process that fails most often. Name it in one line.

2

EVIDENCE

Go back three months. Count the failures and note what each one cost.

3

GAP

What is common to the failures that is not common to the successes?

4

COST

What is the monthly cost of the failures, in hours or money?

5

DECISION

Decide the shape of the fix: a check, a template, a different order, or a different owner.

6 MOVE

Write the process on one page, including the fix, and say where it lives.

WORKSHEET · AFTER CLARITY POINT 6

Written, run, corrected

The process that breaks first, in six steps — then run it once and write what actually happened beside each.

AS WRITTEN	WHAT HAPPENED WHEN RUN

STEPS TESTED AGAINST REALITY

What this decides. Which written step you change, because reality disagreed with it.

7 REVIEW

Who runs it this week without you, and what do you check afterwards?

Lead the market

What the customer felt — Internal breakage always reaches outside eventually

1 NAME IT

Write whether customers have noticed this breaking. Say honestly.

2 EVIDENCE

Open your complaints, revisions and late deliveries from three months. How many trace back to it?

3 **GAP**

Which customers were affected more than once?

WORKSHEET · AFTER CLARITY POINT 3

What the customer felt

The last four times this broke internally. What the customer experienced, and whether they said anything.

WHEN	WHAT THEY EXPERIENCED	DID THEY SAY SO? Y/N

BREAKS THAT REACHED THE CUSTOMER _____

What this decides. Which customer you call, and what you tell them before they tell someone else.

4 **COST**

What is the chance each of them returns? Say what you base that on.

5 **DECISION**

Decide whether any of them should be told, and what you would say.

6 **MOVE**

Write the message and the date, or write plainly that you have chosen not to and why.

7 **REVIEW**

What will tell you the relationship recovered, and by when?

This level closes when all twenty-eight are answered. Not before.

04

LEVEL 4 · GROWING · LEANS ON LEAD YOUR PEOPLE

Say the hard thing

THE PROMISE OF THIS LEVEL

By Sunday you will have said the hard thing to the person it concerns, in words you chose in advance, and written down what actually happened rather than what you feared would.

Lead yourself

What you do instead of saying it — The substitute behaviour

1

NAME IT

Write what you tend to do instead of raising something directly. Hint, go quiet, do it yourself, joke about it.

2

EVIDENCE

Find the last three times. What did you do each time, and what happened next?

WORKSHEET · AFTER CLARITY POINT 2

The substitute behaviour

What you do instead of saying the thing. Three examples from the last month, and what each one cost.

WHAT YOU DID INSTEAD	WHAT IT COST

SUBSTITUTIONS YOU CAN NAME

What this decides. Which substitute you stop using this week.

3

GAP

What do you believe would happen if you said it plainly?

4 **COST**

What has the substitute cost — in time, in resentment, or in the other person not knowing?

5 **DECISION**

Decide the plain sentence you will use instead.

6 **MOVE**

Write it out. Under twenty words, no preamble, and say when you will use it.

7 **REVIEW**

What will you write down afterwards to compare the fear with the outcome?

Lead your people

How you say the hard thing — Specific, owned, and possible to act on

1 **NAME IT**

Name the person and the thing that needs saying. One line each.

2 **EVIDENCE**

Write the last specific example, with the date and what actually happened.

3 **GAP**

Separate what you observed from what you concluded. Put them in two columns here.

4 **COST**

What has it cost so far — theirs, yours, or a customer’s?

5

DECISION

Decide the one change you are asking for. One, stated as a behaviour.

WORKSHEET · AFTER CLARITY POINT 5

Specific, owned, actionable

Three parts, written before you walk in. Nothing about who they are — only what happened and what changes.

When _____, the effect was _____. What I need instead is _____. I will support that by _____.

THE SPECIFIC OCCASION

THE EFFECT IT HAD

WHAT YOU NEED INSTEAD

WHAT YOU WILL DO TO HELP

WHAT YOU WILL SAY

Why the fourth part is not softness. Naming what you will do to support the change turns a verdict into an agreement. It also commits you, which is why it is usually the part that gets left out. A conversation where only one person has an obligation is not feedback; it is an instruction with feelings attached.

What this decides. The day, and what you will check afterwards.

6

MOVE

Write the opening sentence, the example you will give, and the ask. Then the day and time.

7

REVIEW

What will you see in two weeks if it landed? Write it before the conversation.

Lead your business

What the standard actually is — You cannot hold someone to an unwritten line

1

NAME IT

Write the standard this person has missed.

2

EVIDENCE

Find where it is written down. If it is not, say so plainly.

3

GAP

If it is unwritten, how were they supposed to know it?

4

COST

What has an unwritten standard cost — with this person, and with anyone else?

5

DECISION

Decide what the standard is, in observable terms.

6 MOVE

Write it, say where it lives, and who else needs to see it.

WORKSHEET · AFTER CLARITY POINT 6

The line, written down

You cannot hold someone to an unwritten standard. Write this one so it can be checked by someone who was not there.

For _____, finished means _____. It is checked by _____, and the person responsible is _____.

THE TASK

WHAT FINISHED MEANS

HOW IT IS CHECKED

WHO IS RESPONSIBLE

THE STANDARD, STATED

What this decides. Who you send it to today, so it stops being yours alone.

7 REVIEW

Which piece of work is the first to be measured against it, and when?

Lead the market

Where it reached the customer — The honest audit before the conversation

1 NAME IT

Write whether this has affected a customer, and which one.

2 EVIDENCE

Open that job. What did the customer actually experience, and when?

3 GAP

What did they say at the time, and what did you say back?

4 COST

What is that relationship worth over a year? Write the figure.

WORKSHEET · AFTER CLARITY POINT 4

Where it reached the customer

Work redone in the last month because the standard was unclear. Hours redone, and what an hour of delivery costs you.

HOURS REDONE LAST MONTH

WHAT AN HOUR OF DELIVERY COSTS YOU

COST OF REWORK LAST MONTH

Rework is the cost nobody books. Doing something twice costs twice, but only once appears in any account — the second pass hides inside salaries and evenings. Measure it for one month and it stops being invisible. It is also the single cost most reliably reduced by writing one paragraph down.

What this decides. Which unwritten standard gets written this week.

5 DECISION

Decide whether anything is owed — a fix, a credit, or a conversation.

6 MOVE

Write what you will do and the date.

7 REVIEW

How will you know the relationship is sound? Name what you would check.

This level closes when all twenty-eight are answered. Not before.

05

LEVEL 5 · GROWING · LEANS ON LEAD YOUR BUSINESS

Define “finished”

THE PROMISE OF THIS LEVEL

By Sunday “finished” will mean the same thing to you and to everyone else in the business, written down, with one delivery already measured against it.

Lead yourself

When you decide it is good enough — Your own finish line, examined

1

NAME IT

Write how you currently decide a piece of work is done.

2

EVIDENCE

Open your last three deliveries. How long did each sit with you after it was usable? Estimate the hours.

WORKSHEET · AFTER CLARITY POINT 2

Your own finish line

Three things you finished last week. What made you stop — and be honest where the answer was the clock.

WHAT YOU FINISHED	WHAT MADE YOU STOP

FINISHES YOU CAN EXPLAIN

What this decides. One finish line of yours you turn into a sentence someone else could use.

3

GAP

What were you doing in that time — improving it, or delaying it?

4 **COST**

What did the extra hours cost across three jobs?

5 **DECISION**

Decide the test you will apply instead. Something outside your own feeling.

6 **MOVE**

Write the test, and the next delivery it applies to.

7 **REVIEW**

What will you compare afterwards — the time taken, or the response?

Lead your people

What they think finished means — Ask before you assume

1 **NAME IT**

Write what you believe your team or contractors think “done” means.

2 **EVIDENCE**

Ask one of them to describe it in their own words. Write their answer.

WORKSHEET · AFTER CLARITY POINT 2

Ask before you assume

Ask three people what finished means on the same task. Write what they say, in their words.

WHO	WHAT THEY SAID FINISHED MEANS

DEFINITIONS IN CIRCULATION

What this decides. Whose definition becomes the written one.

3 **GAP**

Where does their version differ from yours?

4 **COST**

What has that difference cost in rework in the last month?

5 **DECISION**

Decide whose version is right, or what the combined version is.

6 **MOVE**

Write the agreed definition and tell them. Note the date you told them.

7 **REVIEW**

Which job tests it, and who confirms it was clear?

Lead your business

What finished means here — Observable, checkable, written

1

NAME IT

Write your main deliverable and what currently signals it is complete.

2

EVIDENCE

Open the last five. For each, note who decided it was done and on what basis.

3

GAP

Which of the five would fail a stricter test, and which would pass?

4

COST

What does an inconsistent finish line cost in revisions and in reputation?

5

DECISION

Decide the checklist. Five items at most, each observable.

6 MOVE

Write it and say where it sits in the workflow.

WORKSHEET · AFTER CLARITY POINT 6

Observable, checkable, written

Four boxes for one deliverable: what must be true, what must be attached, who signs it off, and what happens if it is not met.

WHAT MUST BE TRUE	WHAT MUST COME WITH IT
WHO SIGNS IT OFF	IF IT IS NOT MET

BOXES ANSWERED

What this decides. Whether you can hand this deliverable over on Monday.

7 REVIEW

Which delivery is the first to use it, and what do you review afterwards?

Lead the market

What the customer calls finished — Their line is the one that counts

1 NAME IT

Write what you think the customer considers the job complete.

2 EVIDENCE

Find the last two jobs where they came back after you thought it was over. What did they want?

3 **GAP**

What were they expecting that was never discussed?

WORKSHEET · AFTER CLARITY POINT 3

Their line, not yours

Ask three customers what a finished job looks like to them. Then mark where their line and yours differ.

CUSTOMER	THEIR LINE	WHERE IT DIFFERS FROM YOURS

GAPS FOUND _____

What this decides. Which gap you close, and in which direction.

4 **COST**

What did those extra rounds cost in hours?

5 **DECISION**

Decide what you will state up front from now on, so the line is shared.

6 **MOVE**

Write that statement and where it appears — proposal, confirmation, or first call.

7 **REVIEW**

Which job tests it, and what will you ask them at the end?

This level closes when all twenty-eight are answered. Not before.

06

LEVEL 6 · GROWING · LEANS ON LEAD THE MARKET

Five customers, one phrase

THE PROMISE OF THIS LEVEL

By Sunday you will have the words five customers used about why they chose you, the one phrase that repeats, and that phrase already live where enquiries arrive.

Lead yourself

The story you tell yourself — Your version, before you test it

1

NAME IT

Write why you believe customers choose you rather than the alternatives.

WORKSHEET · AFTER CLARITY POINT 1

Your version, before you test it

Write what you believe customers value most. Seal it before you ask anybody — you will want to compare afterwards.

I believe customers stay because _____, and that what they value most is _____.

WHY YOU THINK THEY STAY

WHAT YOU THINK THEY VALUE MOST

YOUR VERSION

What this decides. Nothing yet. This one waits for evidence.

2

EVIDENCE

Where did that belief come from? Name the moment or the person.

3

GAP

When did you last check it against anyone outside the business?

4 **COST**

What has selling on an untested reason cost — in price, or in the wrong enquiries?

5 **DECISION**

Decide to hold the belief loosely until you have five answers.

6 **MOVE**

Write the one question you will ask, word for word.

7 **REVIEW**

By which date will you have the five answers?

Lead your people

Who inside knows the answer — The people closest to the customer heard it first

1 **NAME IT**

Name whoever in your business speaks to customers most.

2

EVIDENCE

Ask them why they think customers choose you. Write their answer verbatim.

WORKSHEET · AFTER CLARITY POINT 2

Who inside already knows

The people closest to your customers heard the answer first. Ask three of them what customers say, before you ask any customer.

WHO YOU ASKED	WHAT THEY HEAR CUSTOMERS SAY

ANSWERS ALREADY INSIDE THE BUSINESS

What this decides. How this gets to you routinely, rather than because you ran a worksheet.

3

GAP

Where does it differ from yours?

4

COST

What has it cost that nobody asked them until now?

5

DECISION

Decide to make this a standing question, not a one-off.

6

MOVE

Write when you will ask it again, and how it gets recorded.

7 REVIEW

What would make you change the pitch because of what they say?

Lead your business

Whether delivery supports the reason — The claim has operational consequences

1 NAME IT

Write the reason you believe customers choose you.

2 EVIDENCE

Open your last three jobs. Where did delivery actually demonstrate it?

3 GAP

Where did delivery contradict it?

WORKSHEET · AFTER CLARITY POINT 3

Does delivery support the claim

Take what customers say they value. For each, name the part of delivery that produces it, and who protects it.

WHAT THEY VALUE	WHERE IT IS PRODUCED	WHO PROTECTS IT

VALUED THINGS WITH A PROTECTOR

What this decides. Which unprotected thing gets an owner this week.

4 COST

What does a contradiction cost the next time that customer is asked for a referral?

5 **DECISION**

Decide the one change that makes delivery match the claim.

6 **MOVE**

Write the change, the owner, and the date.

7 **REVIEW**

Which job proves it, and what will you check?

Lead the market

Why they chose you, in their words — Five answers, one repeated phrase

1 **NAME IT**

Write your current description of what you do.

2

EVIDENCE

Ask five customers: “What made you choose us?” Paste all five answers.

WORKSHEET · AFTER CLARITY POINT 2

Five answers, one repeated phrase

Ask five customers why they chose you. Write their words. Then mark the phrase that appears more than once.

CUSTOMER	THEIR WORDS

ANSWERS IN THEIR OWN WORDS

Their words, not your summary. The moment you tidy a customer’s sentence, you replace their reason with yours. A language model will summarise five answers into something smooth and plausible in a second, and the smoothness is precisely what destroys the value. Keep the awkward phrasing — the awkward part is usually the true part.

What this decides. Whether what you believed in the first worksheet survives this.

3

GAP

Which words or ideas appear in more than two answers?

4

COST

What has it cost to lead with your words rather than theirs?

5

DECISION

Decide the phrase you will adopt.

6

MOVE

Write where it goes first and the day you change it.

7

REVIEW

How many enquiries until you can judge it, and what will you compare?

This level closes when all twenty-eight are answered. Not before.

07

LEVEL 7 · GROWING · LEANS ON LEAD YOUR PEOPLE

Write the unwritten deal

THE PROMISE OF THIS LEVEL

By Sunday the agreement nobody wrote down will be written, agreed out loud by both sides, and the first thing it governs will already have happened under it.

Lead yourself

What you assumed was understood — The terms you never said

1

NAME IT

Write the expectation you hold of someone that you have never actually stated.

2

EVIDENCE

Find where you believe it was agreed. A message, a meeting, or nowhere. Say which.

WORKSHEET · AFTER CLARITY POINT 2

The terms you never said

Four things you expect from people that you have never actually stated.

WHAT YOU EXPECT	EVER SAID OUT LOUD? Y/N

UNSTATED EXPECTATIONS

What this decides. Which one you say out loud this week.

3

GAP

If it is nowhere, what made you believe it was settled?

4 **COST**

What has the assumption cost — in friction, rework, or a relationship cooling?

5 **DECISION**

Decide what the real agreement should be.

6 **MOVE**

Write it in plain terms, under five lines, and when you will put it to them.

7 **REVIEW**

What will you have in hand afterwards that proves it was agreed?

Lead your people

The agreement nobody wrote down — Both sides, in writing, out loud

1 **NAME IT**

Name the person and the arrangement that was never written.

2 **EVIDENCE**

Write what each of you currently does under it, and what each of you gets.

3 **GAP**

Where would your two versions differ if they wrote theirs separately?

4 **COST**

What has the ambiguity cost either side in the last three months?

5 DECISION

Decide the terms: what, by when, for what, and what happens if it slips.

6 MOVE

Write it, send it, and ask them to confirm. Note the date you sent it.

WORKSHEET · AFTER CLARITY POINT 6

Both sides, in writing

One working relationship. What you owe them, what they owe you, how either raises a problem, and when you review it.

WHAT I OWE	WHAT THEY OWE
HOW WE RAISE A PROBLEM	WHEN WE REVIEW IT

BOXES ANSWERED _____

What this decides. Who you sit down with, and when.

7 REVIEW

What is the first thing that happens under the new agreement, and when?

Lead your business

What the business promised — Commitments made and never recorded

1 NAME IT

Write any commitment your business made that is not in a contract or a message.

2 EVIDENCE

Open the last three months of customer conversations. List any promise you find.

WORKSHEET · AFTER CLARITY POINT 2

Commitments never recorded

Promises the business has made that exist only in conversation. To whom, what, and whether anyone besides you knows.

TO WHOM	WHAT WAS PROMISED	WHO ELSE KNOWS

PROMISES WITH A WITNESS

What this decides. Where these get written, and who maintains that place.

3 GAP

Which of those are still outstanding?

4 COST

What is the total exposure if every one of them were called in this month?

5 DECISION

Decide which get honoured, renegotiated, or withdrawn.

6 MOVE

Write each decision with the date it is communicated.

7 REVIEW

Where will commitments be recorded from now on, and who checks?

Lead the market

What customers assume they are buying — The unwritten half of the offer

1 NAME IT

Write what your customers assume comes with what they buy, beyond what you state.

2 EVIDENCE

Open your last five enquiries. What did people ask about that you do not mention anywhere?

3 GAP

Which assumption appears more than once?

WORKSHEET · AFTER CLARITY POINT 3

The unwritten half of the offer

Four things customers assume are included. Whether they are, and whether anybody ever said so.

WHAT THEY ASSUME	INCLUDED? Y/N	EVER STATED? Y/N

ASSUMPTIONS SURFACED

What this decides. One assumption you state publicly, and which way you state it.

4 COST

What does an unmet assumption cost — in a refund, a bad review, or a lost referral?

5 **DECISION**

Decide: include it, price it, or rule it out in writing.

6 **MOVE**

Write the change and where it appears, with a date.

7 **REVIEW**

What will you watch in the next five enquiries?

This level closes when all twenty-eight are answered. Not before.

08

LEVEL 8 · GROWING · LEANS ON LEAD YOUR BUSINESS

Your week, on one page

THE PROMISE OF THIS LEVEL

By Sunday your week will exist on one page: the fixed rhythm, the one hour where you look at the numbers, and who owns what — tested by running it once.

Lead yourself

The week you keep meaning to have — Intention against calendar

1

NAME IT

Write the week you intend to have. Blocks, not wishes.

2

EVIDENCE

Open last week. Mark each block that survived and each that did not.

3

GAP

What displaced the blocks that failed? Name the specific thing each time.

WORKSHEET · AFTER CLARITY POINT 3

Intention against calendar

The week you keep meaning to have, against the one you had. Hours you intended for the most important work, and hours it actually got.

HOURS YOU INTENDED

HOURS IT ACTUALLY GOT

THE GAP BETWEEN INTENTION AND WEEK

What this decides. What you remove, not what you add.

4 **COST**

What did losing them cost?

5 **DECISION**

Decide the two blocks that must survive every week, whatever happens.

6 **MOVE**

Put them in the calendar for four weeks and write what they are.

7 **REVIEW**

Which day do you check survival, and what counts as a good month?

Lead your people

Who is in which meeting, and why — Attendance is a cost, not a courtesy

1 **NAME IT**

List every recurring meeting. Who attends, and how long is each?

2 **EVIDENCE**

Multiply attendees by hours by weeks. Write the monthly cost in hours.

3 **GAP**

Which meeting would nobody miss if it stopped?

4 COST

What else could that time have produced?

WORKSHEET · AFTER CLARITY POINT 4

Attendance is a cost

Your recurring weekly meetings. People in the room, hours a week in total, and what an hour of salaried time costs you on average.

TOTAL PEOPLE-HOURS A WEEK IN MEETINGS

AVERAGE COST OF AN HOUR

PEOPLE-HOURS A YEAR IN RECURRING MEETINGS

A meeting costs attendance, not time. An hour with six people is six hours. That is obvious and almost never calculated, which is why recurring meetings grow invitees and never lose them. The figure is not an argument against meeting — it is what makes removing one person from one recurring meeting feel like the decision it actually is.

What this decides. One recurring meeting that loses a person, shortens, or ends.

5 DECISION

Decide what is cut, shortened, or has its attendance reduced.

6 MOVE

Write the change and tell the people affected. Note the date.

7 REVIEW

When will you ask them whether anything was lost?

Lead your business

The week, on one page — A rhythm you can hand to somebody

1 **NAME IT**

Write what has to happen every week for the business to run.

2 **EVIDENCE**

Beside each, write who does it, on which day, and how long it takes.

3 **GAP**

Where does the page show two things on one person on one day?

4 **COST**

What has an unmanaged week cost — a missed deadline, a late invoice, a dropped lead?

5 **DECISION**

Decide the fixed shape: what happens Monday, what happens midweek, what closes the week.

6

MOVE

Write it on one page, name the owner of each item, and say where the page lives.

WORKSHEET · AFTER CLARITY POINT 6

The week, on one page

The rhythm somebody else could run. What happens, on which day, owned by whom.

DAY	WHAT HAPPENS	OWNER

RHYTHMS WITH AN OWNER

What this decides. Which rhythm changes owner this month.

7

REVIEW

Which week runs under it first, and what do you review on the Friday?

Lead the market

When customers hear from you — A rhythm outward, not only inward

1

NAME IT

Write how often a customer or prospect currently hears from you.

2

EVIDENCE

Open your sent messages for the last month and count the outward touches.

3 **GAP**

Which weeks had none, and what else was happening those weeks?

WORKSHEET · AFTER CLARITY POINT 3

When customers hear from you

Your outward rhythm. What goes out, how often, and when it last actually went.

WHAT GOES OUT	HOW OFTEN IT SHOULD	WHEN IT LAST DID

OUTWARD RHYTHMS WITH A REAL DATE _____

What this decides. Which one you either restart or formally stop.

4 **COST**

At your conversion rate, what did the silent weeks cost?

5 **DECISION**

Decide the minimum outward rhythm you will hold.

6 **MOVE**

Put it on the one-page week with an owner and a day.

7 **REVIEW**

When will you count touches again, and what number is the floor?

This level closes when all twenty-eight are answered. Not before.

09

LEVEL 9 · GROWING · LEANS ON LEAD YOURSELF

Remove one brick

THE PROMISE OF THIS LEVEL

By Sunday you will have named the ceiling you built, found the evidence for it in your own calendar and bank statement, and removed one brick — with a date on when you check the gap.

Lead yourself

The ceiling you built yourself — The limit that is yours, not the market's

1

NAME IT

Write what you believe is currently limiting the business.

WORKSHEET · AFTER CLARITY POINT 1

The limit that is yours

Some limits are the market's. Some are yours. Name one of yours plainly.

This business cannot _____ because I {my limit}. If that were not true, the next thing would be _____.

WHAT THE BUSINESS CANNOT DO _____

YOUR PART IN IT _____

WHAT WOULD FOLLOW _____

YOUR CEILING, STATED _____

What this decides. Whether you raise it, or accept it out loud and plan around it.

2

EVIDENCE

For that limit, find evidence in your calendar, your accounts, or your messages. Write what you found.

3

GAP

How much of the limit is outside you, and how much is a decision you keep making?

4 **COST**

What has the decision cost over the last six months?

5 **DECISION**

Decide the one thing you will stop deciding that way.

6 **MOVE**

Write what you will do instead, and the first occasion it applies.

7 **REVIEW**

When do you look again at the limit, and what would show it moved?

Lead your people

Who you will not let grow — A ceiling of yours is a ceiling of theirs

1 **NAME IT**

Name someone in your business who could do more than you currently let them.

2 **EVIDENCE**

Write what you have actually given them in the last three months.

3 **GAP**

What are you afraid would happen if you gave them more?

4 COST

What has holding them there cost — their engagement, or your hours?

WORKSHEET · AFTER CLARITY POINT 4

A ceiling of yours is a ceiling of theirs

Three people whose growth is limited by something you hold. What they cannot do, and what you would have to release.

WHO	WHAT THEY CANNOT DO	WHAT YOU WOULD RELEASE

RELEASES NAMED

What this decides. One release, this month, with the person told.

5 DECISION

Decide the one thing you hand over, and what support comes with it.

6 MOVE

Write what, to whom, from when, and what you will not interfere with.

7 REVIEW

What will you look at in a month to judge it, and what would make you take it back?

Lead your business

What cannot grow as it is — The part that breaks at double

1 NAME IT

Write what would break first if volume doubled next month.

2

EVIDENCE

Find its current capacity. A number of jobs, hours, or units. Write it.

3

GAP

How close to that number are you now? Write both figures.

WORKSHEET · AFTER CLARITY POINT 3

What breaks at double

Walk through delivery at twice the volume. For each step, what breaks and at roughly what level.

STEP	WHAT BREAKS	AT WHAT LEVEL

BREAK POINTS IDENTIFIED

What this decides. Which single break point you work on, and which you deliberately leave.

4

COST

What would breaking it cost — in refunds, overtime, or reputation?

5

DECISION

Decide the change that raises the ceiling: a system, a person, or a price.

6

MOVE

Write it, the owner, and the date.

7 REVIEW

What number tells you the ceiling moved, and when do you read it?

Lead the market

Demand you are turning away — The enquiries that never became anything

1 NAME IT

Write how many enquiries you turned down or let go cold in the last three months.

2 EVIDENCE

Open them. Group the reasons: wrong fit, no capacity, no follow-up, price.

3 GAP

Which reason is largest, and is it a choice or a failure?

4 COST

What was that group worth, at your average value?

WORKSHEET · AFTER CLARITY POINT 4

Demand you turned away

Enquiries in the last three months you could not take or did not follow up. How many, and what one would have been worth.

ENQUIRIES NOT TAKEN

WHAT ONE IS WORTH

VALUE OF DEMAND YOU TURNED AWAY

The cost of the thing that did not happen. Lost demand never appears in any account, which is why capacity problems are tolerated far longer than cost problems of the same size. Counting it once converts a vague sense of being full into a figure you can put beside the price of a hire.

What this decides. Raise capacity, raise price, or choose to stay this size — and say which.

5 DECISION

Decide what changes for that group: a different answer, a waiting list, or a referral.

6 MOVE

Write the change and when it starts.

7 REVIEW

How many enquiries until you review it, and what will you measure?

This level closes when all twenty-eight are answered. Not before.

10

LEVEL 10 · GROWING · LEANS ON LEAD YOUR BUSINESS

Fix the failing handoff

THE PROMISE OF THIS LEVEL

By Sunday the handoff that keeps failing will carry everything it needs, in a fixed form, and one piece of work will already have passed through it cleanly.

Lead yourself

What you carry in your head — The context nobody else receives

1

NAME IT

Write what you know about a current job that exists nowhere except in your head.

2

EVIDENCE

Count how many open jobs have something like that attached to them.

WORKSHEET · AFTER CLARITY POINT 2

What you carry in your head

Five pieces of context you hold that nobody else receives. Who needs each, and where it would live.

WHAT YOU CARRY	WHO NEEDS IT	WHERE IT WOULD LIVE

CONTEXT WITH A HOME

What this decides. Which one gets written down first, and where.

3

GAP

What happens to those jobs if you are unreachable for a week?

4 **COST**

What has that risk already cost, the last time you were unavailable?

5 **DECISION**

Decide the minimum context that must be written for every job.

6 **MOVE**

Write that list — four items at most — and where it is recorded.

7 **REVIEW**

Which job records it first, and who else reads it to check it is enough?

Lead your people

Both sides of the handoff — The giver and the receiver rarely agree

1 **NAME IT**

Name the handoff that fails most, and the two people either side of it.

2 **EVIDENCE**

Ask the receiver what they wish arrived with the work. Write their answer.

3 GAP

What do they need that the giver does not currently send?

WORKSHEET · AFTER CLARITY POINT 3

Both sides of the handoff

Ask the giver and the receiver the same three questions separately. Write both answers.

QUESTION	GIVER SAYS	RECEIVER SAYS

QUESTIONS ANSWERED BY BOTH SIDES

What this decides. Which disagreement you settle, in writing, with both present.

4 COST

What has the gap cost in rework or delay in the last month?

5 DECISION

Decide what travels with the work, agreed by both.

6 MOVE

Write it as a short form or checklist, and the date it starts.

7 REVIEW

Which handoff tests it, and who reports whether it arrived complete?

Lead your business

The handoff that keeps failing — Fixed form, every time

1

NAME IT

Write where work changes hands and most often loses something.

2

EVIDENCE

Go back a month. Count the failures and note what was missing each time.

3

GAP

What is missing more than once?

4

COST

What is the monthly cost, in hours of rework?

5

DECISION

Decide the form the handoff takes: a template, a field, a standing note.

6

MOVE

Build it now and say where it lives.

WORKSHEET · AFTER CLARITY POINT 6

Fixed form, every time

The handoff as a form. Four things that must travel with the work, every time, no exceptions.

THE GOAL	WHAT THEY MAY DECIDE
WHAT THEY NEED TO KNOW	WHAT FINISHED MEANS

BOXES ANSWERED

What this decides. Where this form lives so it is used without you asking.

7

REVIEW

Which piece of work goes through it this week, and what do you check afterwards?

Lead the market

Where the customer falls through — The handoffs they can feel

1

NAME IT

Write the points where a customer passes from one person or stage to another.

2

EVIDENCE

Open your last three customers. At which point did each have to repeat themselves?

3 **GAP**

Which point caught more than one of them?

4 **COST**

What does repeating themselves cost you in confidence and in referral?

WORKSHEET · AFTER CLARITY POINT 4

Where the customer falls through

The handoff customers can feel. How long it should take, and how long it actually took on the last five.

DAYS IT SHOULD TAKE

DAYS IT ACTUALLY TOOK, ON AVERAGE

DAYS THE CUSTOMER WAITS BEYOND WHAT YOU INTENDED

Lead time is a promise you make without speaking. Customers set expectations from the first few experiences and measure everything after against them. The gap between intended and actual is the part they feel, and it compounds: every delay also delays the next step for someone else. Measure it on five real jobs rather than estimating — the estimate is always kinder than the record.

What this decides. Which step in the handoff loses the days, and who owns closing it.

5 **DECISION**

Decide what carries across that point so they never repeat it.

6 **MOVE**

Write the change and the date.

7 **REVIEW**

What will you ask the next customer, and when?

This level closes when all twenty-eight are answered. Not before.

11

LEVEL 11 · GROWING · LEANS ON LEAD YOUR PEOPLE

Trust, checked

THE PROMISE OF THIS LEVEL

By Sunday trust in your business will rest on something checked rather than something promised: one commitment verified, one person told the truth about where they stand, and a date set for the next check.

Lead yourself

What you promise without noticing — The commitments you make in passing

1

NAME IT

Write three things you said you would do in the last fortnight.

2

EVIDENCE

Find each one. Done, partly done, or forgotten? Mark them.

WORKSHEET · AFTER CLARITY POINT 2

What you promise without noticing

Four things you said you would do in the last fortnight, in passing. Whether they happened.

WHAT YOU SAID	TO WHOM	DONE? Y/N

PASSING PROMISES ACCOUNTED FOR _____

What this decides. Which one you complete today, late and without excuse.

3

GAP

What is your actual completion rate on things said in passing?

4 **COST**

What does that rate cost you, with the people who heard them?

5 **DECISION**

Decide what you will stop saying unless you intend to track it.

6 **MOVE**

Write where a promise gets recorded from now on, and by whom.

7 **REVIEW**

When will you check the record, and what rate is acceptable?

Lead your people

Trust, checked not promised — One commitment, verified

1 **NAME IT**

Name a commitment somebody made to you that you have never verified.

2 **EVIDENCE**

Find the evidence. Was it kept? Write what you found, not what you assumed.

3 **GAP**

If you did not check, why not — trust, or avoidance?

4 **COST**

What has not checking cost, if it turned out not to be kept?

5 DECISION

Decide how this gets checked from now on, without it feeling like surveillance.

6 MOVE

Write the mechanism and tell them what it is and why. Note the date.

WORKSHEET · AFTER CLARITY POINT 6

One commitment, verified

Trust is a checked action, not a further assurance. Pick one commitment and define the check.

_____ committed to _____ by _____. We will both know it happened because _____.

WHO

WHAT

BY WHEN

THE CHECK YOU BOTH SEE

THE COMMITMENT, WITH ITS CHECK

What this decides. Whether the check is visible to them too, or only to you.

7 REVIEW

When is the first check, and what result is fine?

Lead your business

What the record shows — Evidence over impression

1 NAME IT

Write your impression of how reliably the business delivers on time.

2

EVIDENCE

Open the last twenty jobs. Count on time, late, and very late.

WORKSHEET · AFTER CLARITY POINT 2

Evidence over impression

Four pieces of evidence from the record rather than from memory. Where each came from, and what it shows.

WHAT THE RECORD SHOWS	WHERE IT CAME FROM

CLAIMS WITH A SOURCE

What this decides. One judgement you were carrying that the record did not support.

3

GAP

How far was your impression from the count?

4

COST

What has lateness cost in the last quarter?

5

DECISION

Decide the one cause you will address, based on the count and not the feeling.

6

MOVE

Write the change, the owner, and the date.

7 REVIEW

When do you count the next twenty, and what number is the target?

Lead the market

What customers can rely on — The promise you would publish

1 NAME IT

Write the one thing a customer could rely on from you, every time.

2 EVIDENCE

Check it against the record you just counted. Does it hold?

3 GAP

Where would it fail if you published it?

4 COST

What would failing a published promise cost?

5

DECISION

Decide the version you could publish honestly today.

WORKSHEET · AFTER CLARITY POINT 5

The promise you would publish

What customers can rely on — stated as something you would put in writing where anyone could hold you to it.

Every customer can rely on _____. If we fail to, _____.

WHAT THEY CAN RELY ON

WHAT YOU DO IF YOU FAIL

THE PUBLISHED PROMISE

What this decides. Whether this goes on the website this month, or gets made true first.

6

MOVE

Write it, say where it goes, and the date.

7

REVIEW

How will you know it is still true in three months? Name the check.

This level closes when all twenty-eight are answered. Not before.

12

LEVEL 12 · GROWING · LEANS ON ALL FOUR

Your business, on one page

THE PROMISE OF THIS LEVEL

By Sunday the business will be described on one page — the rhythm, the owners, the numbers and the promise — in a form you could hand to somebody new, and one person will already have read it back to you.

Lead yourself

What has changed in you — Eleven levels, honestly reviewed

1

NAME IT

Read back your answers from levels one to eleven. Write the one thing you kept returning to.

2

EVIDENCE

Count how many levels it appeared in, and name them.

WORKSHEET · AFTER CLARITY POINT 2

Eleven levels, honestly reviewed

Three things that have actually changed in how you work. The evidence for each — something someone else would notice.

WHAT CHANGED	EVIDENCE SOMEONE ELSE WOULD SEE

CHANGES WITH OUTSIDE EVIDENCE

What this decides. What carries into the next twelve weeks, and what you stop.

3

GAP

What did you actually change about it, and what did you only intend to change?

4 **COST**

What will it cost over the next twelve weeks if it stays as it is?

5 **DECISION**

Decide the one behaviour you hold for the next quarter.

6 **MOVE**

Write it as something observable, and the weekly moment you check it.

7 **REVIEW**

What date closes the quarter, and what will you look at then?

Lead your people

Who holds what — A business where ownership is visible

1 **NAME IT**

List the main areas of the business. Beside each, write the one person accountable.

2 **EVIDENCE**

Where did you write your own name more than twice?

3 **GAP**

Which of those could carry somebody else’s name within a quarter?

4 **COST**

What does single-point ownership cost you, in risk and in hours?

5 DECISION

Decide the one area that changes hands, and what the handover involves.

6 MOVE

Write who, from when, and what support they get.

WORKSHEET · AFTER CLARITY POINT 6

Who holds what

The business as ownership. Each area, its owner, and how that owner knows they are doing well.

AREA	OWNER	HOW THEY KNOW IT IS GOING WELL

AREAS WITH A NAMED OWNER _____

What this decides. One area that changes owner before the next quarter starts.

7 REVIEW

What will you review at the end of the quarter to know it worked?

Lead your business

The engine, described — One page, handed to somebody new

1 NAME IT

Write what the business does, how work arrives, how it is delivered, and how it is paid for.

2

EVIDENCE

Gather what you have built across these levels: the week on a page, the definitions of done, the handoff form, the standards. List what exists and where.

3

GAP

What is still only in your head?

4

COST

What would a two-week absence cost today, compared with the start of this programme?

5

DECISION

Decide the one remaining piece to write down.

6

MOVE

Write it, then assemble the whole into a single page and say where it lives.

WORKSHEET · AFTER CLARITY POINT 6

One page, handed to somebody new

The engine in four boxes: how work arrives, how it moves, how it finishes, and how you know it worked.

HOW WORK ARRIVES	HOW IT MOVES
HOW IT FINISHES	**HOW YOU KNOW IT WORKED**

BOXES ANSWERED _____

What this decides. Who you give it to, and when you ask them.

7 **REVIEW**

Who reads it back to you, and what did they ask that tells you it is not yet clear?

Lead the market

What the business promises now — The claim your operations can carry

1 **NAME IT**

Write the promise your business can now make that it could not twelve levels ago.

2 **EVIDENCE**

Find the evidence: the counts, the definitions, the retention answers you gathered.

3 **GAP**

Which part of the promise is still unproven?

4 **COST**

What would it be worth, in price or in enquiries, if that part were proven?

5 **DECISION**

Decide the one thing that proves it within the next quarter.

WORKSHEET · AFTER CLARITY POINT 5

The claim operations can carry

What the business promises now — and it has to be a promise the engine above can actually keep at current volume.

We promise _____ that _____, delivered within _____. We can hold that at _____ a month.

WHO

THE PROMISE

WITHIN WHAT TIME

AT WHAT VOLUME

THE CLAIM, WITH ITS CEILING

What this decides. Whether you publish the volume, or raise it first.

6 **MOVE**

Write it, who owns it, and the date.

7 **REVIEW**

What number tells you the promise is true, and when do you read it?

This level closes when all twenty-eight are answered. Not before.
